

Orientation training for fishermen begins

ITANAGAR, Jul 15: Five days orientation training on 'principles of fish seed farm management' for fishermen began at Fish Farmers Training Centre, Emchi, Doimukh today.

Inaugurating training, J Taba, Director of Fisheries, exhorted the participants to attend all the practical trainings and learn from the resource persons on in-

duced breeding and hatchery management.

Explaining the objective of the training, which aims to refresh and update the knowledge and to familiarize the participants with the advancement in technology and ever changing management practices, Taba suggested all the participants to apply practically what they have learnt

from the training for effective management of fish seed farms for better production.

All the DDF, ADF (Trg.) and DFDO also spoke and elaborated on the key subjects.

This is the first training in a series of four such training planned for fishery demonstrators and fishermen.
