

## Fish farmers being trained

**EMCHI, Jul 15:** Twelve fish farmers from different districts took part in a department of fisheries-conducted five-day orientation training programme on 'principles of fish seed farm management' which began at the fish farmers training centre here today.

Fisheries director J Taba in his inaugural address said that the main objective of the training is to familiarize the participants with the current advancements in techniques relating to fish farming. Taba advised the farmers to put into practice the training imparted to them for effective management of fish seed farms as well as for enhancing productivity.

The fisheries deputy director, the Yupia DFDO and other officials were also present on the occasion.
